

Exhibit IX-2: Tobacco Smoke Exposure Questionnaire

Project HOPE **TOBACCO SMOKE EXPOSURE QUESTIONNAIRE**

Subject ID#:

TODAY'S DATE: | | - | | - | | | |

SITE: _____

To Be Administered in Conjunction with Saliva Collection

The following questions ask about your exposure to tobacco smoke over the past 7 days. When I ask you about cigarettes, please count a cigar the same as a cigarette. Please also count a pipe bowl of tobacco the same as a cigarette.

Please answer each question as accurately as you can. Your answers are strictly confidential.

1. How long (hours, days, weeks, months or years) has it been since you smoked at all, even a puff of a cigarette?

| | HOURS

| | DAYS

| | WEEKS

| | MONTHS

| | YEARS

NEVER SMOKED.....- 7 → SKIP TO Q.4

IF LONGER THAN 7 DAYS SINCE SMOKED → SKIP TO Q.4

2. On how many of the past 7 days did you smoke cigarettes?

| | DAYS

For the next question, I need you to think about your smoking habits on the days that you did smoke during the past 7 days. We are interested in your smoking habits on a typical or usual day that you smoked. Please think about the past 7 days, and select one of the days when you smoked that was typical or usual for you.

Which typical day have you selected? _____

3. On [TYPICAL DAY SELECTED BY RESPONDENT], how many cigarettes did you smoke? Please remember to count a cigar and a pipe bowl of tobacco the same as a cigarette.

| | CIGARETTES

Next, I would like to ask you about other people who might have smoked in your home during the past 7 days. These could be people you live with, people who were staying with you, or visitors. When I ask about cigarettes, please remember to count a cigar and a pipe bowl of tobacco the same as a cigarette.

4. On how many of the past 7 days did anyone else, other than yourself, smoke cigarettes inside your home?

|_|_|_| DAYS

IF = “0”, SKIP TO QUESTION 7

5. On the days when other people smoked inside your home during the past 7 days, what was the average number of cigarettes smoked in a day?

|_|_|_| CIGARETTES

For the next question, I need you to think about a typical or usual day when other people, besides you, smoked inside your home. Please think about the past 7 days, and select a day that was typical or usual.

Which typical day have you selected? _____

6. Please estimate the total number of these other people’s cigarettes you were exposed to inside your home on [TYPICAL DAY SELECTED BY RESPONDENT]. When I say, “exposed,” I mean you were in the same room when any part of the cigarette was smoked.

|_|_|_| CIGARETTES

7. Next, I am going to ask you about any other places away from your home that you were exposed to cigarette smoke during the last 7 days such as in the car, at a relative’s house, at a social event, or at your workplace. As before, please remember to count a cigar and a pipe bowl of tobacco the same as a cigarette.

Please estimate the total number of cigarettes you were exposed to in any other places away from your home on a typical day in the past 7 days. When I say, “exposed,” I mean you were in the same room or area when any part of the cigarette was smoked.
